

ADDENDUM TO RPF DOCUMENTS

Addendum No: #01

Project: Climate Action and Adaptation Plan

Date Issued: February 18, 2022

Addendum #1: – The following changes to the Request for Proposal provided below must be added/considered when completing your submittal. Acknowledgement of receipt of this addendum is required in the Statement of Proposal cover page. Please clearly note the addendum date and number.

The City would like to consider and weigh options for a Climate Action Plan vs a combination Climate Action and Adaptation Plan. In your response, please consider the primary task as production of a Climate Action Plan with an optional added project task of Adaptation as a separate component. This will allow the City to compare scope of work and costs associated with Adaptation on their own.
